

For Immediate Release

MEMCO, INC. ANNOUNCES PERSONNEL CHANGES

Hollister, MO. March 17, 2009 - Memco is pleased to announce that **Ed Bray** has accepted the position of **Vice President, Operations** for Memco, Inc. Ed has worked with Memco and the Middleton family for more than 25 years in multiple capacities, most recently as Operations Manager and head of Memco and MandM Poultry's Springdale, Arkansas facility, the company's largest. Ed will bring his vast experience and knowledge to the rest of Memco and MandM Poultry Equipment. He will be tasked with increasing productivity, streamlining operations, and strengthening the companies' growth in our safety, janitorial, packaging, and poultry equipment development and distribution.

Executive Vice Presidents **Rob Middleton**, **Jesse Middleton** and **Drew Horst** will continue in their same capacities while increasing their focus on Sales and Marketing, Research and Development, and other important areas.

Ed will be vacating the Branch Manager position in Springdale to take this new position. In his place **Angela Ulmer** will be taking on the interim position of **Acting Branch Manager**. Angela has worked for Memco and with the Middleton family for more than 10 years. We know her experience and years of service will give her the unique ability to continue the Memco tradition in Springdale of impeccable service to our customers and operational excellence. She has shown in her previous position of Office Manager that she has the ability to organize and lead. These qualities will be very important to her new role. We have every confidence that the Springdale facility will continue to meet market demands with dedication and hard work.

Company CEO, Julie Middleton said Tuesday "We feel that these key personnel changes are building our leadership team to compete in an ever changing and challenging environment. It also speaks very highly to the depth of the quality of people that our companies have internally."

Memco, Inc. is a wholesale distributor of Safety, Packaging, Janitorial, and other Industrial Products. MandM Poultry Equipment, Inc. is a producer and distributor of quality equipment, engineered solutions and related products for the Poultry Processing Industry.
